

HAIR REMOVERS ARE DANGEROUS

Don't Use Poisonous So-Called
Superfluous Hair Removers.

You may escape permanent injury if you use paste, rub-on preparations and liquid lotions of DeMiracle, the original liquid hair remover, but you cannot escape an increased growth, because such things only remove hair from the surface of the skin.

The safest and surest way to remove hair is to devitalize it. DeMiracle, the original liquid hair remover, does this by absorption, therefore it attacks hair under the skin as well as on the skin. DeMiracle works equally well in removing hair from face, neck, arms and under arms or from limbs to prevent it from showing through stockings. Avoid disappointment. Buy DeMiracle by name and you will get the only depilatory that has ever been endorsed by reputable physicians, surgeons, dermatologists, medical journals and prominent magazines.

RUMORED HIGH BRITISH OFFICIAL FACES TRIAL

LLOYD-GEORGE DOING HIS U.
MOST TO PREVENT PREMA-
TURE PUBLICATION

London, Aug. 9.—David Lloyd-George, secretary of war, in the House of Commons, moved the second reading of the bill giving civilians the right to appeal before military tribunals as witnesses and for providing that in cases of civil disobedience were implicated, they should be liable to be arrested.

Repeating to the bill a demand or the name of the demand, Mr. Lloyd-George said he was doing his utmost to prevent premature publication of negotiations which an inquiry might prove to be unsupported. The affair had been investigated by the late Field Marshal Earl Kitchener, Premier Asquith and himself, he added, and he was seeking to "protect the honor of a young Irish Catholic soldier against accusations involving dishonor."

Taking Big Chances.
It is a great risk to travel without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as this preparation cannot be obtained on the trains or steamships. Attacks of bowel complaint are often sudden and very severe, and everyone should be prepared for them. Obtainable everywhere.

BLOOD STAINS LED TO HEADLESS BODY OF A MAN

GRUESOME FIND BY JENKS
COUPLE AFTER MYSTERI-
OUS SHOT IN NIGHT

Jenks, Okla., Aug. 9.—The crack of a pistol at an early hour this morning awakened several citizens, but when no second shot was heard and no cries of pain followed the report, the aroused populace dropped back to sleep.

Albert Johnson and his wife were awakened by the loud report. Johnson sat up in bed a moment and listened. In his semi-consciousness the report had sounded very near. No sound was heard and Johnson was soon asleep. He had started to call to George Ryan, a roomer in the Johnson home, but fearing that Ryan might be asleep he did not call.

Panic-stricken, Mrs. Albert Johnson grasped her husband when she awakened this morning at 7 o'clock. Beside the bed was a large pool of blood. One bloody hand had left an imprint on the white bed sheet. The gruesome sight chilled the blood in their veins and it was with mingled fear and dread that Johnson cast his eyes around the room.

Johnson, on the side of the bed opposite the ghastly brown-red out-looked beneath the bed. His expectations were not fulfilled, he and no bloody corpse. Evading the pool of blood, Johnson left his bed. He saw faint blood stains leading into the room and out again.

Johnson and his wife followed the thin trail of blood to an adjoining room. Across the bed was the body of George Ryan, who had been lying with them, his head almost blown away. Powder stains signified that the fatal shot had been fired at close range. No pistol could be found near the body and Ryan was never known to possess a gun. Officials scout the theory of suicide. They are baffled as to the motive of the murderers. Undersheriff R. R. Reynolds and Coroner Lee Daniel are investigating the case.

FOREIGNERS EXCITE SUSPICION AT CANAL

ADMINISTRATION ADVISES PRE-
CAUTIONARY STEPS AGAINST
SURVEYS OF FORTS

Washington, Aug. 9.—Activities of persons suspected of being spies employed by foreign governments to acquire information regarding the nature and extent of the defenses of the Panama canal have made the administration decide to request congress to supplement the existing laws against the improper acquisition of knowledge of military and naval plans and fortifications.

Several of the military powers of the world are believed to have undertaken to obtain information as to the character of the defenses of the Panama canal. The latest incident to excite suspicion is the operations of a little Japanese power vessel, ostensibly a fishing launch, which sought to obtain a permit for pearl fishing in the waters of Panama Bay and vicinity. The canal authorities have been warned that this craft appeared to have been making surveys.

Representatives of the Department of Justice and the war and navy department have been in conference on the subject and it is expected that they will agree upon some very drastic legislation to be submitted to congress. It is possible that the scope of the conference may be extended beyond the original ideas of a mere protection of the secrets of American coast defenses, to cover generally such attempts as have been common since the beginning of the present war to destroy powder and munitions plants upon which the United States government must rely in time of trouble.

HOW DAIRY FARMERS

KEEP GARLIC FROM MILK.

Farm and Fireside, the national farm paper published at Springfield, Ohio, says that although large milk establishments have mechanical processes for taking odors out of milk and cream by means of an air blast, the dairy farmers can not afford these inventions. The method suggested is to keep the cows off garlicy pastures several hours before milking. Another way is to kill wild garlic by turning sheep on pastures. They like the tops and in a short time the garlic will die.

A WORD FOR THE COUNTRY GIRL.

In recent years the problem of keeping the boy on the farm has been thought serious enough to arouse considerable discussion. The farmer has been told that he ought to provide the most modern agricultural machinery in order to obviate the hard labor of farming and keep the boy interested; that he should send his boys to a good school of scientific agriculture; that he should set aside a certain portion of the farm for the boy and permit him to keep the profit from his operation; and he has been told many other things, in all of which the importance of the boy to the farm was emphasized and plans suggested to make his lot a little easier and more promising. The country agent has interested himself in the problem by organizing boy's corn-growing and other agricultural contests.

But how about keeping the girl on the farm? asks the Indianapolis News. The girl does not ordinarily do the heavy field work but her services in homekeeping, cooking and mending, as well as in butter-making, milking, caring for garden and chickens, while tasks usually fall to her lot, are surely valuable enough to warrant the greatest consideration. And yet, discussion of the problem of keeping the girl on the farm is infrequent. Consequently, the speaker who addressed the Bethany Park assembly on the career of the farm girl lay some claim to originality. There was nothing eulogistic about the address, however. The speaker merely outlined the characterization of the perfect country girl and the ideals to which she should aspire. The farm girl, said the speaker, "will not hear the music from famed orchestras and at night and that is one way they take cold. FRENCH BLACK LIST INCLUDES MANY FIRMS

LIST FILLS 24 COLUMNS AND
COVERS BUSINESS FIRMS ALL
OVER THE WORLD

Paris, Aug. 9.—The official journal today publishes the names of American individuals and firms which have been placed on the French blacklist under the trading with the enemy act. The list, which is marked No. 1, is the same as regards American individuals and firms as that given out in London, July 18.

The list printed in the official journal covers twenty-four columns and includes firms and individuals in Mexico, South America, Japan, the Philippines, Cuba, Denmark, Spain, Portugal, Greece, Holland, Norway and Sweden, with whom French citizens are forbidden to trade.

The list is preceded by a notice from the committee of restriction of supply and of commerce with the enemy saying that the list is in complete, and the fact that a firm or person is not inscribed on it can not

be involved in any way and that French merchants having commercial relations with neutrals must in case of doubt, continue to make the supplementary declarations provided for in the customs declaration when taking out goods.
